Tribute Wall

“ My father, Hoyt Gervis Lancaster, was also preceded in death by a son--Gerry Don Lancaster who died at age 24. Lost but not forgotten, loved tremendously by family. He served his country 4 years in the Navy. My mother was a homemaker who also held down a full time job for years. My dad worked for United Carbon Black company in Kansas and Louisiana and Arkansas-Oklahoma Gas Coompany in Fort Smith Arkansas. He taught me how to and what is expected to as survive as a single parent of 3 children. He was a good teacher of right from wrong. Forever in my heart, his daughter, Linda Lancaster Watson.
