“ *I have so many wonderful memories*

I remember being around 5 or so and when Grandma would come get me in her Cadillac she would put the armrest down and I would sit on that armrest With my arm around her neck. I really felt like I was a Big girl. Lol She always made me feel special

She asked me when I was little what I was going to do when I got to big to sit in her lap. I remember telling her I will just have to put my head in your lap. When I stayed with my grandma and grandpa Ned I would go with them to the store and she would always tell me when it was almost time to leave for the day and I would run in the back and get in the recliner they had and she would always tell grandpa Ned, Tina's asleep you will have to carry her to the car :) I always loved him carrying me to the car!

When I got older she would say honey what's bothering you and I would tell her and she would start giggling and say Is THAT ALL. She always made me feel better! I know I was and will always be her sugar lump. I Love You to Heaven and Back Grandma! We will be together again one day !
