“ *I can remember as a child my mother and father convinced her to go out on the boat we had and mind you my grandmother was terrified of the water. They finally got her to try to learn how to swim while they had her in the water she was so scared that she couldn't relax to let the life jacket do its job but instead she was holding on to them and pushing them down while she was trying to stay above the water. It was the funniest thing I had ever seen.*
